Annual School and Council Meeting

Good Financial Reports

There were about forty in attendance at the annual meetings of the Gleichen Public School Board and the Town Council, which was held in the Masonic hall.

Mayor Tudhope in calling it to order said he thought that the school business should be taken up first as the town meeting might be lengthy and some kicking done.

There upon Chairman Hall asked Secretary MacLean to read the financial report, which was too lengthy to produce in this issue, the total receipts being \$6,489.82 and expenditures \$6,153.22, leaving a balance of \$336.60 in the bank.

The report open for discussion no one took advantage of it and after the secretary read two excellent reports from the school inspector the chairman gave a brief outline of the work accomplished by the trustees and the general condition of the school, in which he stated that the attendance was growing so rapidly that next spring at least two more rooms would have to be added to accommodate the pupils.

A hearty vote of thanks was tendered the trustees for the excellent report and able manner in which the school had been conducted.

Mayor Tudhope in asking the secretary to read the financial report of the Town expressed the hope that the ratepayers would ask information on any question they wished and he and the councillors would do their best to supply it.

The financial report is also a very lengthy one and can be seen at the Town Hall. The total receipts were \$56,845.92 and expenditures were \$56,104.81, leaving a balance on hand of \$741.11.

The statement of the taxes shows that at the beginning of this year there was in arrears \$30,293.17 and of this \$8,953.54 of arrears and \$7,712.10 of current and S. R. tax \$121.67, a total collection of \$16,787.31. This leaves now outstanding \$13,506.86. This the mayor thought a very creditable showing for the finance committee, which is composed of Aldermen Hyndman, H. D. McKay and C. R. McIntyre.

The mayor explained that at the beginning of this year the town had reached the limit of its borrowing powers and there was nothing else to do but get after those in arrears with their taxes and whether the Council had done right or not was for the ratepayers to say now, and they would have an opportunity to elect an entire new Council as he had resigned to take effect the end of the year and so had the councillors. He has served two years by acclamation and thought it time the ratepayers showed interest enough in town affairs to say who should be in charge.

Alderman Hyndman and H. D. McKay both spoke upholding the stand they took on finances and Mr. Hyndman added that before the end of the year many would pay this year's taxes to save the 5 per cent and he hoped to see the arrears reduced to about \$9,000.

Ald. F. K. McKay said the public works committee also had their trouble and very little money to do anything with. Also when work was to be done men and teams could not be had, and when these

Hocky Club Dance Friday, Dec. 5

Friday, December 5th, is the next big night for real enjoyment. That is the night of the Hockey Club dance and everybody will be there with their friends to enjoy themselves and to help the boys get away to a good start this season. We have the material for a splendid lineup and it is up to the rooters to see the club has new uniforms and the few other necessary items required. Show the boys you appreciate their skill and efforts by attending the dance. Mrs. Trainor's orchestra has been engaged and a good time is assured.

Agricultural Assoc. Dance, and Entertainment Friday, Dec. 12

All remember the excellent entertainment and dance given by the Gleichen District Agricultural Association last spring and how everybody enjoyed themselves. On Friday, December 12th, the Association will put on another just such a pleasant evening, with just the difference that the committee in charge hope to take advantage of their experience and improve on it.

The committee is taking up the matter with the ladies and hopes every lady in the district will help in supplying the edibles.

were obtainable winter set in. He gave quite an interesting and humorous account of early days and a short history of the town's ups and downs. He hoped there would be a real old-time election this year.

A motion was carried by the meeting tendering the mayor and councillors a most hearty vote of thanks for their able services.

Excellent Band Concert

Well may Conductor E. Wetton and the members of the Gleichen Citizens Band feel pleased with the success of their concert and dance given in the Opera House on Friday night. The attendance was good and every number on the program was well received and given hearty applause and encores insisted for several items. The only change made in the printed program was a vocal duet being substituted for a quartette, which was rendered by Mr. and Mrs. Wetton and being the only vocal item of the evening and exceptionally well rendered was the more appreciated and applauded. The cornet duet by Mr. and Mrs. Wetton was also a treat that called for an encore.

The duet rendered by Mr. Harris and Mrs. Onstad also received a hearty encore.

Mr. McCullough was a little nervous at the outset with his trombone selection, but finished it well.

All the other numbers were by the full band of which approval was warmly expressed individually and collectively by all present. Some of the selections were of the classical variety and some were surprised that they were even attempted by a band organized less than a year, yet all considered they were played remarkably well, but when the band struck popular airs it was impossible for the boys in the audience to keep quiet.

For sometime past the band boys have expressed themselves as very much pleased with the improvement they were making under the leadership of Mr. Wetton, and now we must all agree with them. The fact is Gleichen is fortunate in having in our midst such talented

musicians as Mr. and Mrs. Wetton. The boys looked fine in their new uniforms and are to be congratulated on their taste in making their selection. And in future the Gleichen Citizens Band will look good as well as play well.

The dance that followed the concert proved most enjoyable under the capable management of Mr. E. Minard. The lunch served on the stage was all that could be desired and was supplied by the wives of the bandmen and the Women's Institute.

The entire net proceeds go to help paying for the new uniforms.

COMING EVENTS

Nov. 30—A Special G. W. V. A. meeting.

Nov. 26—Adjourned meeting of Board of Trade.

Nov. 29—"Blue Eyed Mary" in Opera House.

Dec. 1—Nomination of the Public School trustees.

Dec. 5—Hocky Club dance in the Opera House.

Dec. 6—Sale of Work by Union Church Circle, in P.O. Block.

Dec. 12—Gleichen Agricultural Assoc. entertainment and dance.

Dec. 25, Xmas—"Auction of Souls" at Opera House.

Monday—Ad. changes required by noon at CALL office.

The average retailer dislikes to reveal his business affairs, such as margins, to the public gaze, not because he is profiteering, but because he feels that the public would misunderstand. Average retail selling costs are about 25 per cent, the usual price to the buyer being such as to allow the dealer to make a 25 per cent. margin on the selling figure. Because of the quick turnover of stocks in the grocery business, members of that trade are able to make a fair profit on a 25 per cent. margin. The grocers have nothing to conceal and a good deal to tell.

A special and important meeting of the Gleichen G. W. V. A. is called for 3 o'clock Sunday afternoon, Nov. 30th.

A "quarter" buys a Thrift Stamp.

Rink Opens Monday With Free Skating

Monday night the skating rink will be opened for the season, with the Citizens Band in attendance and all free of charge.

Frank and Ed. Scott have the management this season and that means nothing will be left undone to have good ice for the comfort and happiness of their patrons. Already a great amount of energy has been spent in getting the rink in good shape and from now until Monday there will be no let up.

Like everything else now days the cost of maintaining the rink is more expensive, and necessarily the season tickets have advanced slightly, men to \$6, ladies \$4 and children \$1.50 each, and special rates for family tickets. The small extra charge, however, is more than made up by the season opening a month earlier than in former years.

Gleichen Board of Trade

The regular meeting of the Gleichen Board of Trade Monday night had the largest attendance since re-organizing, but was limited to a half-hour, owing to the annual town and school meetings also held that night.

Necessarily all business was rushed through, the minutes accepted and the reports of the by-law committee on defining the work of the finance and advertising committees passed upon.

The most important business transacted was the unanimous passing of the following resolution submitted by Messrs. T. H. Beach and D. Hutcheson:

A copy of this resolution was handed to Mayor Tudhope by Pres. Matthews with congratulations and his worship in a few words thanked the board on behalf of the council for the kindness and thoughtfulness expressed. After which the meeting adjourned and the entire assembly went over to the Masonic hall to attend the school and town meetings.

IN MEMORIAM

The greatest sympathy is expressed for Mr. George Bouchard and family of Ouelletteville in the very sudden death of Mrs. Clodea Bouchard, on Thursday last, November 20th. Mrs. Bouchard was seemingly in the best of health and Wednesday night attended a dance, during which she fainted and never again regained consciousness, passing away at 10.15 the following morning.

Dr. Bowles of Cluny was called and everything possible was done, but without avail.

The remains were brought to Gleichen and interred in the Catholic cemetery Saturday morning, Rev. Father Simonin conducting the last sad rites in the church and at the cemetery. A large number of friends of the Ouelletteville district accompanied the remains from the home, by whom the deceased lady was held in the highest respect and esteem.

She came to this district about eight years ago from Quebec with her husband and family and leaves besides her husband to mourn her great loss, eight children, three of whom are married and the youngest only two years of age. The deceased was 47 years of age.

PINDER & STABBACK

THE RELIABLE FURNISHERS

SIMPLE AS A.B.C. TRY IT TONIGHT FOR YOUR NERVOUSNESS

Worn out, tired in the morning, you lack the energy and ambition to work as of old. This means nerve decay—nerves that are starved for the want of good, rich blood.

It's blood nourishment that vitalizes the nerves. Your blood is thin, weak, watery. It's filled with poisons that hang on because your kidneys don't filter properly.

See here, fix up your kidneys, put new life in your liver, and you'll feel like new in a short time.

To do this, you must use Dr. Hamilton's Pills. They make life look bright and pleasant because they restore harmony and vigor to the organs that need repair.

Dr. Hamilton's Pills warm the blood and fill it with nutriment that's bound to build you up, that's sure to lift your weakness, that invariably does make joyous, robust Good Health.

Think of it, youthful strength, lots of nerve force, plenty of red blood surging through your veins— isn't this reason enough for your using Dr. Hamilton's Pills? Sold in 25c boxes by all dealers.

Arrangement.

(Continued.)

His nights were busy with his investigations, but on Sundays, as usual, he went out to Duncan's. He had developed the habit of attending morning service; he loved the music, and it was customary for Edith to sing a morning solo. Her voice, which had enraptured him when they first met, had developed wonderfully. It filled the morning air like the clear tolling of silver bells. For its sake he gladly endured the sermons, and even in the sermon he sometimes found common ground with the preacher. They could meet on any faith that postulated the brotherhood of man. But the reverend speaker touched such a subject warily. It seemed to Dave he would gladly have gone further, but was held in restraint by a sense of the orthodoxy of his congregation. Too literal an interpretation of the brotherhood of man might carry the taint of Socialism, and the congregation represented the wealth of the city. It was safer to preach learnedly on abstractions of belief.

This morning Edith had not been in her place, and the service was flat. In the afternoon she was not at her home. Mrs. Duncan explained that Edith had gone to visit a girl friend in the country; would be away for some time. Dave felt a foolish annoyance that she should have left town. She might at least have called him up. Why should she call him up? Of course not. Still, the town was very empty. He drove with Mrs. Duncan in the afternoon, and at night took a long walk by the river. He had a vague but oppressive sense of loneliness. He had not realized what part of his life these Sunday afternoons with Edith had come to be.

A Happy Family

BY DR. R. C. BOWERS.

A happy family is one that can sit down to the table with keen appetites and good cheer. Plenty of the out-of-doors and cleanliness, inside and outside of the body, will make for health, wealth and happiness. Your doctor will tell you that anything from a headache to the most serious illness may result from allowing food to ferment in the intestines. The first thing to do in case you feel mean, logy, dull, perhaps feverish, is to flush the liver and kidneys, drink plenty of water, and take a dose of castor oil, or, something better, made of May-apple, aloin and jalap, and long sold by almost every druggist as Dr. Pierce's Pleasant Pellets. This may save you from a fit of sickness, remove the poisons from the system and give the tissues of the body a chance to build up and resist disease.

People are realizing more and more that the kidneys, just as do the bowels, need to be flushed occasionally. The kidneys are an eliminative organ and are constantly working, separating the poisons from the blood. Uric acid backs up into the system, causing rheumatism, neuralgia, dropsy and many other serious disturbances.

This can be avoided by stimulating the kidneys to increased action, and because of its tonic effect on these organs I would advise any one to get Anurio (anti-uric-acid) which is to be had nowadays for fifty cents, at almost any drug store.

Helps a Weak Throat Strengthens the Voice Cures Bronchitis

By Breathing the Healing Balsams of
Catarhoxone You Are Cured
Without Using Drugs

You breathe through the Catarhoxone inhaler medicated air that is full of healing, soothing balsams, full of piney antiseptic essences that resemble the air of the pine woods in the Adirondacks. This piney vapor has a truly marvelous action on weak throats. It brings strength and health to the bronchitis, stops that hacking, irritating cough, prevents hoarseness and difficult breathing. You can't find anything for weak-throated people on earth more beneficial than Catarhoxone. It means heaven on earth to the man that has had bronchitis, catarrh or throat irritation. You will realize this the first time you use Catarhoxone, which is a scientific preparation specially designed for diseases of the nose, throat and bronchial tubes. Get the large size, it lasts two months, costs \$1.00; medium size 50c; sample size, 25c. All storekeepers and druggists, or the Catarhoxone Co., Kingston, Canada.

Edith held the bill in his fingers, gingerly, as though it might carry infection, as in very truth it did. He realized that he stood at a turning point—that everything the future held for him might rest on his present decision. There remained in him not a little of the fine, stern honor of the ranchmen of the open range; an honor curious, sometimes terrible, in its interpretation of right and wrong, but a fine, stern honor none the less. And he instinctively felt that to accept this money would compromise him forever more. And yet—others did it. He had no doubt of that. Conward would laugh at such scruples. And Conward had more friends than he had. Everybody liked Conward. It seemed to Dave that he, only, distrusted him. But that, also, as Dave said to himself, lay in the point of view. He granted that he had no more right to impose his standard of morals upon Conward than the preacher had to impose an arbitrary belief upon him. And as he turned the bill in his fingers he noticed that it was for one hundred dollars. He had touched it was ten.

"I can't take that much," he exclaimed. "It isn't fair."

"Fair enough," said Conward, well pleased that Dave should be impressed by his generosity. "Fair enough," he repeated. "It's just ten per cent. of my profit."

"You mean you made a thousand dollars on that deal?"

Exactly that. And that will look like a peanut to what we are going to make later on."

"We?"

"Yes. You and me. We're going into partnership."

"But I've nothing to invest. I've only a very little saved up."

"Invest that hundred."

Dave looked at Conward sharply. Was he trifling? No; his eyes were frank and serious.

"You mean it?"

"Of course. Now, I'll put you on to something, and it's the biggest thing that has been pulled off yet. There's a section of land lying right against the city limits that is owned by a fellow over in England; remit-

ance man who fell heir to an estate and had to go home to spend it. Well, he has been paying taxes ever since, and is tired of the 'bally rawnch'; besides, he is busy keeping his property in England reasonably well spent. I am arranging through a London office to offer him ten dollars an acre, and I'll bet he jumps at it. I've arranged for the necessary credits; but there will be some expenses for cables, etc., and you can put your hundred into that. If we pull it off—and we will pull it off—we start up in business as Conward & Elden, or Elden & Conward, whichever sounds better. Boy, there's a fortune in it."

"What do you figure it's worth?" said Dave, trying to speak easily. "Twenty-five dollars an acre?"

"Twenty-five dollars an acre!" Conward shouted. "Dave, newspaper routine has killed your imagination, little as one would expect such a result, from some of the things the papers print. Twenty-five dollars an acre! Listen!

"The city boundaries are to be extended—probably will be by the time this deal goes through. Then it is city property. A street railway system is to be built, and we'll see that it runs through our land. We may have to 'grease' somebody, but it's a poor engineer that saves on grease. Then we'll survey that section into twenty-five foot lots—and we'll sell them at two hundred dollars each for those nearest the city down to one hundred for those farthest out—average one hundred and fifty, total nine hundred and sixty thousand dollars. Allow, say, sixty thousand for 'grease' and there is still nine hundred thousand, and that doesn't count real estate commissions. Dave, it's good for a cool million. And that is just the beginning. It will give us a standing that will make anything possible."

Dave was doing rapid thinking. Suddenly he faced Conward, and their eyes met. "Conward," he said, "why do you put this up to me?"

"What d'ye mean?"

"You don't need my little hundred to put this over. Why do you let me in on it?"

Conward smiled and breathed easily. There had been a moment of tension.

"Oh, that's simple," he answered. "I figure this business is going to be too big for me, and you are the partner I need. I figure we'll travel well in double harness. I'm a good mixer—I know people—and I've got ideas. And you're sound and honorable and people trust you."

"Thanks," said Dave, dryly.

"That's right," Conward continued. "We'll be a combination hard to beat. You know the story about the brothers in the coal business?"

"No."

"Jim and Fred were coal dealers, when a revival broke out in their town, and Jim got religion. Then he tried to convert Fred; tried awful hard to get Fred to at least go to the meetings. But Fred wouldn't budge. Said it wasn't practicable. Jim argued and coaxed and prayed, but without result. At last he put it up to Fred.

"Fred," he said, 'why won't you come to our meetings?'

"Well," the brother answered, 'it was all right for you to get religion. Sort of lends respectability to the firm. But if I get it, too, who's going to weigh the coal?'

(To Be Continued.)

Germany's present population has been estimated at as low as 57,000,000, as compared with nearly 65,000,000 before the war.

Statistics can be made to show anything that the man behind the figures wants him to be.

W. N. U. 1291

Danzig Mourned Over Peace Terms

Did Not Want to be Separated From
Germany

When the stranger in Danzig, taking the ancient town in its turn in a reportorial tour of central European cities, came out of his hotel the day after his arrival he noticed not far away the tent of a circus. But the usual activities of a circus were lacking; if it were really a circus, as a placard proclaimed it, it was a circus asleep in the heart of a populous city. Nor did anybody pay any attention to it; it stayed there somnolent, and the citizens went about their business with hardly a glance at it. The sight aroused the curiosity of the stranger and he asked his hotel porter about it, and the hotel porter replied that the city was in mourning, and no amusements were permitted. The visitor asked why. "Because of the peace terms," said the porter. "We don't want to be separated from Germany. Everybody in Danzig is German." And so for a week the old city mourned. The circus remained closed; the theatres also, and even the motion-picture houses. When one ate in a cafe one heard only solemn music from the orchestra. The streets were quiet, and it was a melancholy week. But the week ended on Saturday; and all at once the streets were gay. The theatres opened. The circus did a business to the full capacity of its tent, and its band was merrily audible for a long distance. And when the leader of the hotel orchestra took his place at the dinner hour he was smiling cheerfully; and presently he led his musicians through a medley of airs in which the visitor recognised with astonishment "Way Down Upon the Swanee River," "Old Black Joe," "Dixie," "Yankee Doodle," and finally the "Star-spangled Banner." Having mourned for a week, Danzig seemed to be making the best of the situation.

The Bootblack's Reflections

When the War Was on They Were
Something Like Boots

The London bootblack did a roaring trade during the war. But things are not quite so brisk now that the Canadians, Australians and New Zealanders are no more wanting shoeshines at any time of the night or day. And so the bootblack stands patiently by his box and brushes hoping for customers. He is quite willing to converse with anybody who has the time to listen to him, though street corners by the big railway stations—Charing Cross, Victoria—are too bustling for real conversation. But while diving for pennies to pay for getting your shoes cleaned, there is time to hear the bootblack's remarks on the falling-off not so much of his own prospects (he is a cheerful soul), but of boot leather. Hardly worth cleaning now, the boots aren't, to his way of thinking. And when the war was on they were something like boots—good government leather—good boots and many of them while the war lasted—but now! Yes, it was a good war for the London bootblack. Good wishes to him for the future.—Christian Science Monitor.

Airplane For South Pole

John L. Cope to Have Special Type
of Machine Made for His
Long Journey

John L. Cope, leader and organizer of the British Imperial Antarctic Expedition, stated with regard to his projected flight that he was not merely going to fly to the pole, but intended to use the airplane throughout the six or seven years that the expedition would be on the ice. It was his intention to chart the whole Antarctic from the air.

Of course, added Mr. Cope, the machine itself would have to be of a very special type—capable of carrying four men and provisions for at least one month. While a fast machine would be of great value, what was more important was climbing ability. The experts were convinced that they could design a plane which would accomplish the task. One of the functions of the pilot would be to act as the eyes of the ship once they were in the ice. Like Commander Shackleton, he was convinced that an airman flying ahead of the ship and in touch with wireless would be able to point out ice-free channels through which the ship could be navigated.

Among the personnel of the expedition is Mr. Ernest Joyce, who accompanied the first Scott expedition to the South Pole, and was a member of both Shackleton expeditions. Mr. Joyce is now on his way to England from Sydney, and is to serve as second in command to Mr. Cope.

The mosquito isn't the only bore that sings at his work.

Reading often makes a man full of words that he cannot pronounce.

SUNDAY SCHOOL LESSON

LESSON FOR NOVEMBER 30

JESUS TEACHES PETER TRUE GREATNESS

I. Christ's Amazing Love for His Own (vv. 1-3).

Jesus was fully conscious of what was upon him. He knew that the cross with all its anguish was just before him. He knew that his disciples would shamefully forsake him in a few hours. He knew that one of that number would be the instrument in the hands of the devil in his betrayal. He knew that all things were in his hands; was fully conscious of his deity. Notwithstanding all this, he displayed patient and untiring love. He did not withdraw his love from them because of their weakness and the shameful failure which he knew would soon be made manifest.

II. Christ Washing His Disciples' Feet (vv. 4-11).

This act is symbolic of his amazing love for his disciples. Jesus did not regard his hand as too holy to do this menial service. The true Christian does not allow his rank in society to keep him from acts of lowly service.

1. Steps in this service: (1) He rose from supper; (2) laid aside his garments; (3) took a towel and girded himself; (4) poured water into a basin; (5) washed his disciples' feet; (6) wiped them with a towel where-with he was girded. These steps symbolize Christ's entire work of redemption. His rising from supper represents his rising from his place of enjoyment in the heavenly glory; his laying aside his garments, his putting aside his vesture of majesty (Phil. 2:7, 8); his girding himself, his taking the form of a servant (Phil. 2:7); the water in the basin, his cleansing blood; his washing of their feet, his actual cleansing of men through his Word (John 15:3; Eph. 5:26); his taking his garments again, his return to his place and position of glory.

2. Peter's impetuous ignorance. He goes from one extreme to another. It was his failure to understand the significance of this service that caused him to behave so strangely.

3. The significance of this service to those who participate in it. (1) It is a spiritual cleansing (v. 8). Fellowship with Jesus is only possible as we are continually cleansed from our sins. "He that is washed needeth not save to wash his feet, but is clean every whit" (v. 10). The cleansing here is not the washing of regeneration, but that of sanctification. Even regenerate folks need the continual cleansing of Christ's blood in order to have fellowship with him. He that is regenerated—washed in the blood of Christ, symbolized by baptism—does not need a repetition of the act; he only needs the cleansing of sanctification, symbolized by the washing of the feet. As we go through this world after regeneration we are contaminated by its sins. He is willing always to cleanse us of our sins if we allow him. (2) A badge of brotherly affection. This act showed his abandonment to the service of his own. This is a lesson that is much needed today. We need more and more the fulness of brotherly love. This love needs to be manifested so that it may be seen and realized. True love can only be proved by the service it renders. (3) A proof of humility. This is a lesson much needed by us all. The disciples had just been disputing as to who should be the greatest in the kingdom; their selfish ambition was expressing itself. Today, on every hand, we see expressions of pride, vanity, and even arrogance on the part of those who are professed followers of the lowly Jesus. If the Son of God was not ashamed to stoop to lowly service his disciples should not regard it beneath their dignity to follow in his steps. (4) Equalization. As they would thus stoop to serve each other in the name of Christ there would be sure destruction of caste among them. The Spirit of Christ in this service is the great leveler of humanity.

III. An Example for Us (vv. 12-16).

The disciples of the Lord are under obligation to do unto each other as he did unto them. This obligation rests upon his Lordship (v. 14). All who call him Lord in sincerity will obey him. To refuse to obey him is to put one's self above his Lord.

Chinese Masons in Victoria

A sea lion, a fusillade of crackers, a banquet, and the raising of the Chinese flag, indicated to the Victorian town of Echuca that a branch of the Chinese Masonic Society had been formed. Chinese from all parts of Victoria attended the ceremony, and the mayor and councillors of Echuca were guests. The Chinese master of ceremonies was interviewed by returned soldiers who objected to the flying of the Chinese flag alone. Australian and British flags were at once hoisted to the top of the flagpole.

Plenty of Yellow Sugar Available

Trade Commission Says People
Ought to Be Content With
Brand

On account of complaints regarding the sugar shortage, the Canadian Trade Commission telegraphed thirteen representative boards of trade and wholesale grocers' associations of Canada, stating that yellow sugar was available for immediate delivery. The replies have shown no evidence of a sugar famine, but some objection was made to the proportion of yellow sugar offered. It would appear that the problem is one of high living rather than high cost of living.

The Canadian trade commissioners are convinced that the clamor for more sugar is due largely to people insisting on getting all white sugar to the practical exclusion of yellow.

Plans Large Plant

Smelter Company Contemplates Installing a New Concentrator
At Rossland, B.C.

A report from Victoria says that the Consolidated Mining and Smelter Company contemplates installing a new concentrator at Rossland, British Columbia, which will cover an area of about an acre and involve an outlay of at least \$1,000,000. The buildings probably will be of steel, with steel and glass windows, granite walls and concrete floors. The capacity of the mill will be 1,500 tons a day. It will be designed to treat the ores of the Rossland camp by a process that has been tested for some months at the test concentrator at Trail, British Columbia. The question of the site of the mill is said to be unsettled, but Rossland will probably be the first choice.

Pacific Whaling

Seventy Mammals Were Secured By
a Single Vessel

With the arrival in Victoria recently of three whaling ships, the season has come to a close after a most successful period of fishing. The leading boat secured seventy mammals, which is considered a good record. There was an unusually large number of sperm whales caught, averaging about thirty feet each, as against the sixty feet full grown whale. Many sulphurs were also shot, running eighty-six feet. One mammal measuring forty-four feet in girth yielded 162 barrels of oil.

Of Interest to Well Informed

The human body has 240 bones—ever know that?

The first typewriter was invented in 1876. The late Mr. Shakespeare thus was saved the large expense of a "stenog."

A fathom, which is equivalent to six feet, is derived from the height of a full-grown man.

A woman's brain is at its topmost point of excellence at the age of 25, and a man's ten years later. That's what they say—simply because, respectively, they weigh most at those ages. That, however, isn't saying that a man of 35 can put anything over on his 33-year-old wife.

When a man has his picture taken in an automobile it's a safe bet he doesn't own it.

"Profiteers Of Labor and Capital"

Six Hours Labor Not Enough to Feed
and Clothe the World

A convention of farmers was held in one of the southern states a few days ago, when a resolution was passed to the effect that six hours labor daily on the farm or in urban industry were not enough to feed and clothe the world.

One farmer bluntly stated that the "profiteers of labor" and the "profiteers of capital" seemed to be in combination to make the real workers of the country pay outrageous prices for the necessities of life. "Suppose," he added, "the farmer, who works from seven to noon, and from one to six, with other hours thrown in before breakfast and after supper, flatly refused to work more than six hours a day, where would those six-hour-a-day fellows get off at?"

Quite so. If the production of food, wool, cotton, hides and such factors in life were curtailed, the whole standard of human existence would be lowered just so many degrees towards medievalism and barbarism. — From the Ottawa Journal.

Canada's Live Stock

Must Produce New Type of Horse,
Says Arkell

The time has come when Canada must take stock of itself as it concerns her live stock industry, according to H. H. Arkell, Dominion live stock commissioner of Ottawa, who spoke at the opening session of the annual meeting of the Western Canada Live Stock convention at Victoria.

Mr. Arkell urged the development of a new type of horse to meet the export demands of this age. "Today we find ourselves in Canada with a large number of horses on hand that are unmarketable," he said. "We are faced with the obligation of producing a type that will meet the new market conditions. In producing a Canadian draft horse, we can make a real dividend payer for Canada and work up a firm business to meet the export demand."

Sounding Oceans' Depths

Soundings, or determining the depth of the ocean, is now being accomplished by means of an echo. The instrument used is being installed on the steamship Governor, a vessel just returned by the government to its private owners, and now in coastwise trade between San Diego and Seattle, Washington. The device records the depth of the ocean from a fraction of one fathom to 5,000 fathoms, and will record four soundings a minute.

Prince of Wales' Honor Flag

The first Prince of Wales' honor flag, awarded to commercial organizations reaching one hundred per cent. standard, was won by the Department of Natural Resources, Canadian Pacific Railway, 198 officers and staff contributing to bonds amounting to \$55,000.

Adds New Pleasure

The clean-burning qualities of Imperial Royaltite add a new feature of satisfaction to oil heating and lighting conveniences.

For the oil heater or cook-stove Imperial Royaltite is the source of abundant clean, quick, economical heat. And for the oil lamp, too, you'll readily see its superior quality delightfully emphasized by the clearer, brighter light.

You can't buy better coal oil than Imperial Royaltite, so why pay higher prices?

Commandeering Of Wheat

Sir George Foster Expresses Himself as Satisfied With the Work of Wheat Board

In an interview, Sir George Foster indicated that the rumor that wheat was to be commandeered, which has been disturbing some of the grain interests, was absolutely groundless.

Sir George expressed himself as perfectly satisfied with the work of the wheat board in marketing Canadian wheat, and spoke optimistically of the results that would accrue to the farmer as a result of the pooling arrangement which had been decided upon. He reiterated that the policy of the government was not a permanent one.

AN IDEAL TONIC FOR WEAK PEOPLE

Dr. Williams' Pink Pills Act Directly On the Blood and Nerves

Food is as important to the sick person as medicine, more so in most cases. A badly chosen diet may retard recovery. In health the natural appetite is the best guide to follow; in sickness the appetite is often fickle and depraved.

Proper food and a good tonic will keep most people in good health. Dr. Williams' Pink Pills are the most popular tonic medicine in the world, harmless and certain in their action, which is to build up the blood and restore the vitality to the run-down system. For growing girls who become thin and pale, for tired women, and for old people who fail in strength Dr. Williams' Pink Pills are an ideal tonic. Thousands of people have testified to the health-giving qualities of Dr. Williams' Pink Pills, and in many homes they are the only medicine used. Among the homes in which the benefit of this medicine has been proved is that of Mr. E. A. Underwood, Kingston, Ont., who says:—"I have used Dr. Williams' Pink Pills with the most beneficial results. As the result of hard work I was very much run down, and my appetite was very poor. I got a supply of the pills which I used regularly for some weeks with the result that they restored me to my old time strength. They also proved a blessing to my daughter, who was in a very anemic condition, and who seemed not to get more than temporary relief from any medicine until she took Dr. Williams' Pink Pills. She took the pills for about three months and is now enjoying the best of health. For these reasons I can strongly recommend Dr. Williams' Pink Pills."

At the first sign that the blood is out of order take Dr. Williams' Pink Pills, and note the speedy improvement they make in the appetite, health and spirits. You can get these pills through any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams Medicine Co., Brockville, Ont.

National Livestock Show at Toronto
 Toronto has secured the National Livestock show for 1920, which will run annually, concurrent with the Canadian National Exhibition. A building for this purpose, to cost \$1,000,000, will be erected at the Exhibition Grounds, and work will be commenced early in the spring.

Ideal Land For Mixed Farming

Land for Stock Raising May Be Obtained Under a Twenty-Year Lease

A number of prospective ranchers and stockmen of the southern states have made inspection trips to the vast territory of uncultivated land north of Battleford, Saskatchewan, within the last three weeks as a result of the arrangement recently made by the federal government, whereby land for stock raising and mixed farming may be obtained under a twenty-year lease. Only such land as is unsuitable for agriculture and that lies beyond the range of settlement is subject to this twenty-year lease. Several ranchers now returning south have expressed their satisfaction with the prospects for stock raising.

W. H. Phillips, of Montana, who passed through Winnipeg, Man., on his return from a trip 100 miles north of Battleford through the Meadow Lake district, believes the land ideal for mixed farming.

SUFFERING CATS! GIVE THIS MAN THE GOLD MEDAL

Let folks step on your feet hereafter; wear shoes a size smaller if you like, for corns will never again send electric sparks of pain through you, according to this Cincinnati authority.

He says that a few drops of a drug called freezezone, applied directly upon a tender, aching corn, instantly relieves soreness, and soon the entire corn, root and all, lifts right out.

This drug is a sticky ether compound, but dries at once and simply shrivels up the corn without inflaming or even irritating the surrounding tissue.

It is claimed that a quarter of an ounce of freezezone obtained at any drug store will cost very little, but is sufficient to remove every hard or soft corn or callus from one's feet. Cut this out, especially if you are a woman reader who wears high heels.

A Volunteer of the Gilbert Islands

The Islands Gave Hundreds of Their Best Men to the Empire

The loyalty of the natives of the Gilbert Islands to the British was shown in fine fashion at the outbreak of the world war. The islands gave hundreds of their best men to the Empire and thousands of pounds to the several war funds. There is a striking story told of one of the natives by Thomas J. McMahon, F.R.G.S., in the London Observer. This man held a very responsible position in the native police, and when he applied to the master of police (a British official) for permission to volunteer he was told he could not be spared. He was greatly distressed, regarding himself a "taboo" or very badly treated man. On the day the accepted volunteers were to sail, the unsuccessful native, unable to control his feelings, rushed into the presence of the police master and on his knees said: "Master, master, subsume me no go fight for King George, what he think of me, he think me no good, subsume me no go to the war belly belong me very, very sick," meaning that he would have a broken heart for very shame. He went to the war, he proved himself the splendid man he was, and has now returned to the islands and is sergeant-major of the Ocean Island Police.

Minard's Liniment Cures Colds, &c.

A. and N.V. Convention at Regina
 The several branches of the Army and Navy Veterans will meet in convention in Regina on December 17 and 18, for the purpose of organizing a provincial command.

How's This?
 We offer \$100.00 for any case of catarrh that cannot be cured by HALL'S CATARRH MEDICINE. HALL'S CATARRH MEDICINE is taken internally and acts through the blood on the Mucous Surfaces of the System. Sold by Druggists for over forty years. Price 75c. Testimonials free. F. J. Cheney & Co., Toledo, Ohio.

Wheat weighing 67 pounds to the bushel and believed to be the heaviest ever inspected in the province has just been examined at Calgary. It was graded No. 1 and was grown 25 miles north-east of Calgary on a field of 129 acres, which averaged 28 bushels to the acre.

Football players are now engaged in settling old scores.

Rear Admiral Sims Not to Be Censured

U.S. Has No Intention of Dealing With Alleged Reflections on the Sinn Fein Party

Josephus Daniels, Secretary of the Navy, indicated that no steps were contemplated to discipline Rear Admiral William S. Sims because of statements in recently published articles detailing the Rear Admiral's experiences in Europe during the year. Daniel T. O'Connell, director of the Irish National Bureau, had written to Mr. Daniels, demanding that the officer be called to account for the alleged reflections on the Sinn Fein party in Ireland.

"Admiral Sims was granted permission to write a book on his experiences in Europe," Mr. Daniels said in reply. "The department did not censor it and is not responsible for any statements in it."

Help for Asthma.—Neglect gives asthma a great advantage. The trouble, once it has secured a foothold, fastens its grip on the bronchial passages tenaciously. Dr. J. D. Kellogg's Asthma Remedy is daily curing cases of asthma of long standing. Years of suffering, however, might have been prevented had the remedy been used when the trouble was in its first stages. Do not neglect asthma, but use this preparation at once.

If you would retain your friends don't make them envy you.

Minard's Liniment Cures Diphtheria.

Big Game Plentiful

District Near Candle Lake Particularly Good, Says Game Warden

Big game is plentiful this year, according to a statement made by Andrew Holmes, assistant game guardian for Saskatchewan, on his return from a trip through the north country. It is particularly good in the district to the east and northeast of Candle Lake.

Moose and jumper deer are plentiful and some caribou are to be seen. Large bunches of elk have also been seen in various parts of the country, but these animals are protected.

Timber wolves are reported around Candle Lake in larger numbers than for some years past. Rabbits, ruffed grouse, spruce hen and prairie chicken are all reported to be much more plentiful.

It is human nature to want to amuse someone occasionally.

"SYRUP OF FIGS"

CHILD'S LAXATIVE

Look at tongue! Remove poisons from little stomach, liver and bowels

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless laxative or physic for the little stomach, liver and bowels. Children love its delicious fruity taste. Full directions for child's dose on each bottle. Give it without fear. Mother! You must say "California."

The thicker the letter a woman writes the less there is in it.

Recognized as the leading specific for the destruction of worms, Mother Graves' Worm Exterminator has proved a boon to suffering children everywhere. It seldom fails.

Scotch Thrift

Prospective Bridegroom (In furniture shop).—These prices make me give up all thought of marriage. I now realize it'll be cheaper to let her sue me for breach of promise.—(Edinburgh Scotsman.)

Widows and spinsters naturally oppose men who do not propose.

CUTICURA HEALS ECZEMA

All over baby's face. Came in water blisters and then formed a solid scale. Began to itch and burn so bad he wanted to scratch. Face was badly disfigured. Trouble lasted 4 months. Began using Cuticura Soap and Ointment. Used one cake Soap and one box Ointment when he was healed. From signed statement of Mrs. Albert Ellis, Wettenberg, N. S.

For every purpose of the toilet Cuticura Soap, Ointment and Talcum are supreme.
 For free sample each of Cuticura Soap, Ointment and Talcum, address post-card: "Cuticura, Dept. 4, Boston, U. S. A." Sold everywhere.

A Tongue Twister

An artist went to sea to see what he could see at sea to draw.

He only saw what all may see; the sea was all the artist saw.

Then when he saw he'd seen the sea, proceeded he his scene to draw.

And since I've often seen his scene—the sea the artist saw.

WHEN YOU SUFFER FROM NERVOUSNESS

Almost any man will tell you that Sloan's Liniment means Relief

Women, too, by the hundreds of thousands, use it for relieving neuritis, lame backs, neuralgia, sick headache. Clean, refreshing, soothing, economical, quickly effective. Say "Sloan's Liniment" to your druggist. Get it today. 35c, 70c, \$1.40. Made in Canada.

Calla China Danger Zone

Former Toronto Graduate Tells of Conditions There

The need for civilized countries to interest themselves more closely in the development of China was emphasized by Dr. Chas. W. Service, a former graduate of the University of Toronto, who has spent 17 years in China, in an address to the Empire Club. It was, said the speaker, to the interest of other nations to care for China, for the Chinese were unable to care for themselves. At present it was a diplomatic danger spot and it was useless to talk about making the world safe for democracy while China on account of its isolation and resources was a tempting bait for some grasping power. From a medical viewpoint also, China was a menace, for sanitary conditions were appalling and there was a danger of one of the terrible plagues which beset the country spreading to the Old World, carried by the increasing shipping trade.

China is financially under Japan's thumb, he said.

Soldier Settlement Report

The Soldier Settlement Board of Canada has completed returns up to November 1st, which shows that loans amounting to \$49,041,584 have been approved by the board. The number of loans is 15,209. Forty thousand five hundred and fifty-eight returned soldiers have applied for the benefits of the act, and 30,793 of these have obtained agricultural qualification certificates qualifying them to receive loans for agricultural purchases under the board's scheme.

Eighteen New Buildings

One Winnipeg company is engaged on contracts for 18 bank buildings in Winnipeg and the West. These are represented as follows: Canadian Bank of Commerce, eight branches, \$134,000; Merchants' Bank of Canada, three branches, \$30,000; Bank of Hamilton, three branches, \$57,000; Union Bank of Canada, four branches, \$66,000.

Encouraging Sheep Industry

For purposes of encouraging the sheep industry, the Saskatchewan provincial department of agriculture has just purchased two thousand head of sheep for sale to small farmers at cost, on cash or credit terms. The livestock commissioner is at present scouring Eastern Canada for more good animals, and intends buying another two thousand head if obtainable. The sheep industry of the province is steadily growing.

In all infantile complaints that are the result of the deprivations of worms in the stomach and intestines Miller's Worm Powders will be found an effective remedy. They attack the cause of these troubles, and by expelling the worms from the organs insure an orderly working of the system, without which the child cannot maintain its strength or thrive. These powders mean health and improvement.

Quite Impossible

The inspector was examining the class in geography, and, addressing a small boy in the back row, he asked:

"Now, sonny! Would it be possible for your father to walk round the earth?"

"No,"—sigh!—replied the boy, promptly.

"Why not?" asked the inspector.

"Because he fell down and broke his leg yesterday."

The German government will issue shortly a sweeping decree ordering the removal of monarchical insignia, emblems and designations of all kinds from buildings, letterheads, seals, rubber stamps, brass buttons, or wherever they are affixed.

SHORT OF BREATH Could Hardly Walk Without Resting

When you go to a physician to be examined for any heart trouble, one of the first questions he asks is: "Are you short of breath?"

Now, when the heart becomes affected, there ensues a feeling of a choking sensation, a shortness of breath, palpitation, throbbing, irregular beating, smothering sensation, dizziness and a weak, sinking, all-gone feeling of oppression and anxiety.

On the first sign of the heart becoming weak, or the nerves unstrung, Milburn's Heart and Nerve Pills are just the remedy you require. They regulate and stimulate the heart, and strengthen and restore the whole nerve system.

Mr. Stephen Crouse, East Clifford, N.S., writes: "I suffered for five years with heart trouble. I could hardly walk from the house to the barn without resting, as I used to get so short of breath. Doctors could not help me. My wife told me to get a box of Milburn's Heart and Nerve Pills, and I felt better after taking them; three boxes made me quite well. I am now helping my son to work the farm, and can truthfully say I feel like a different man."

Price 50c a box at all dealers, or mailed direct on receipt of price, by The T. Milburn Co., Limited, Toronto, Ont.

Irrigated Experimental Farm

The Alberta Government, at the request of irrigators, are considering the establishment of an irrigated experimental farm at a point on the Saskatchewan river, two miles north of Medicine Hat. Covering a distance of twelve miles along the river adjoining the city, there are approximately 35,000 acres of land that can be bought under irrigation.

Why are so many men anxious to work when sick and anxious to avoid it when well?

Bovril keeps the Food Bills down

Make all your soups and stews more nourishing with Bovril. It takes a joint of beef to make a bottle of Bovril. The body-building power of Bovril is from ten to twenty times the amount taken. Bovril means more strength—less cost.

Profiteering in Western Canada

Being Followed With Much Success and Profit By Number of Farmers

R. Muckle obtained 7,050 pounds of honey from 77 hives on his farm at Clamdeboye, Manitoba, this season. This honey he has been able to sell retail at thirty cents a pound, which works out at a total return of \$2,115. He has great faith in the future of honey production in the province, and has increased the number of his hives to 116.

Each hive contains from 30,000 to 50,000 bees. Some hives were bought for \$12 last spring and produced \$75 worth of honey.

Beekeeping is being followed with much success and profit by an increasing number of farmers in the Prairie Provinces of Canada every year. Many farmers in the irrigation districts have been very successful in this phase of their activities, their alfalfa and clover fields furnishing an abundant supply of nectar.

Cosmopolitan Canada

Essential That All Canadians Shall Live Together on a Basis of Confidence and Friendship

Canada is a country, not of one race but of many races. More than one-quarter of its population is of French origin. Of Canadians born in the Prairie Provinces, nearly 43 per cent. are of foreign origin. Commenting on these facts, the Farmers' Sun says: "It is essential to Canadian progress that all Canadians shall live together on a basis of confidence and friendship. The feuds of Europe, which have almost ruined that continent, ought not to be perpetuated in Canada. A Canadian should be judged, not by his race, but by his conduct. If he is a good citizen and a good neighbor, that is all we have a right to demand."

Kindness in Business

It is a great privilege to have an opportunity many times a day, in the course of your business, to do a kindness which is not to be paid for. Graciousness of demeanor is a large part of the duty of any official person who comes in contact with the world. Where a man's business is, there is the place for his religion to manifest itself.—Helps.

High Price for Painting

United States artists are encouraged by the fact that one of the highest prices ever paid for a modern American painting has been realized by the Macbeth Galleries, New York. The masterpiece of Winslow Homer, "Coast in Winter," was sold for \$33,000. It was sold for \$2,625 in 1899.

but a beautiful skin is possible only when the liver and kidneys are active, and the bowels functionate properly. The secret of beauty as well as of health is to maintain perfect digestion and elimination.

BEECHAM'S PILLS

help to preserve beauty and maintain health, because they influence liver, kidneys, skin and stomach to functionate in harmony and efficiently.

Worth a Guinea a box. Sold everywhere in Canada. In boxes, 25c, 50c.

A mysterious buyer named "Scott"

has purchased at the auction sale of the property of the Duke of Hamilton the historic silver casket which, it is said, contained the love letters of Mary, Queen of Scots, and the Earl of Bothwell. Accompanying the casket is an ancient document giving its full history.

The price paid was \$75,000.

PILES

Do not suffer another day with itching, bleeding, or protruding Piles. No surgical operation required. Dr. Chase's Ointment will relieve you at once and as a certain cure you owe a box to yourself, dealer, or Edmanston, Bates & Co., Limited, Toronto. Sample box free if you mention this paper and enclose 5c. stamp to pay postage.

Making Humans Transparent

French Scientist Professes to Have Discovered a Fluid Which Is Likely to Supersede X-Rays

Moved to experiment by noticing that a drop of oil made paper transparent, a French scientist professes to have discovered a fluid which similarly renders the human body transparent, and is likely to supersede the X-rays. Indeed, the inventor claims that his fluid is superior to X-rays, in that it allows the pathologist greater liberty in handling, and at the same time shows not only the bone structure, but also the inner muscular and nervous systems. The degree of transparency produced by the action of the fluid can be regulated at the will of the operator. It is said that a board can be made as clear as glass, so that a newspaper can be read through it.

Watch Your Victory Bond Coupons Dec. 1st

The Dominion Government will distribute more than \$18,000,000 in interest on December 1st. If you are a holder of the first Victory Bonds or the first Canadian War Loans, you will share in this important distribution. If your bonds are safely deposited in one of our Safety Deposit Boxes, as they should be for your complete protection, come to the Bank and claim the coupons that day. We will cash them for you or deposit the proceeds.

Canadas' National Ships

National Ships of Canada! Will they ever be to Canada what the ships of Britain have been to the forgotten desolate islands of the North Atlantic?

That instinct for the sea that has ever characterized the Anglo-Saxon from remote days when a Viking he first swept out of the Northern seas in his rakish, shield-fringed craft, is once again revivified throughout the Anglo-Saxon world.

We hear almost every day of the plans of our cousins of the same sea-faring blood to the south, who wish to wrest the control of the ocean-carriage from Britain. Britain already has a substantial nucleus of a national fleet of commerce carriers. Does it mean only that North America is to enter the carrying trade on a scale never before dreamed of, or is Canada to stand side by side with the old Motherland to keep the old supremacy within the Empire? Australia is also passing through an interesting period in connection with her merchant shipping.

England is small, and an island, and all the paths of the seas lie open. The old Viking stain is far from dormant. The English know the ocean in all its moods. They know how to build vessels that survive. The indomitable Englishman rides his ship to all points of the compass. As he goes he trades. A great power, he draws the wealth of many lands to his beloved home-land in the turbulent North Atlantic. His vessels both for trade and fighting grew into the most formidable fleets in both fields of activity. Ships made England great, and ships will keep her so.

Canada's great sea is equal to 30 countries the size of the British Isles, and the population of the whole area is only about one-sixth that of the United Kingdom of Great Britain. Canada could look inward for thousands of miles. The ocean paths are open, but only to the minority. The majority of Canadians probably have never seen the sea. Their view point, like their environment, is insular although we could touch one country almost at all points along a four-thousand-mile boundary line. That sort of a situation produces national isolationism only. The international habit does not come until there are means of contact with other lands. To all others we were shut out. Development alone could give us thousands of seaports along international trading lines. That development was a fleet of ships. Of this fleet—Canada-built, Canada-owned—Canada-controlled, we have already sixteen sturdy vessels varying between 3,500 dead-weight tons, and 8,400 dead-weight tons, in operation between ports in Canada, the United Kingdom, the British West Indies, Cuba and South America. Within a few weeks Australia will be included in the list. Sailings to other ports in Great Britain and elsewhere are now under consideration.

The Canadian federal plan calls for a fleet of sixty ships having a gross dead-weight of approximately 500,000 tons. They belong to Canadians as a whole. Canadian Government Merchant Marine Limited, is the name of the company to operate them under the direction of Canadian National Railways.

CANADA'S AGRICULTURE POSITION

The Hon. S. F. Tolmie, Canada's new Minister of Agriculture, has summed up the outstanding facts of Canada's agricultural position in an article appearing in the November number of The Agricultural Gazette. He presents statistics showing the growth of Canada's financial burden during the past five years and points out means by which our national debt will be reduced. He says in part: "I am confident that this Dominion, through the development of her natural resources will in time wipe out her debt. Forestry, fisheries, and mines all contribute their part of the revenue but by far the greatest returns will be derived from agriculture which industry we must continue to establish in permanency and increase in magnitude. One of the greatest responsibilities that falls on either the federal or provincial departments of agriculture is the conservation of the great wealth that lies in the virgin soil. Innumerable considerations are involved in this one problem, but the whole affair can be accomplished if we engage in mixed farming with live stock as a basis. This is the fundamental principle underlying success in agriculture."

C. W. Harrison is the happy father of another fine bounding boy, who was born in a Calgary hospital on November 12th.

Born—On November 15th, at the Britt Hospital, Banff, to Mr. and Mrs. W. R. McKie, twin daughters.

Economy of Ford Service

WEAR is unavoidable even in the best car, but certain parts wear out more quickly than others. There is no need of scrapping your car because the piston rings have seen their day, because the platinum points of the vibrators are worn out. Probably the rest of the car is as good as new.

Medical men agree that the human body is renewed, cell by cell, every seven years. You can do the same with your Ford Car and prolong its life at minimum cost by replacing worn parts from time to time.

Ford service has been the means of doubling the lives of hundreds of Ford Cars, and cutting down the cost of motoring. The fact that a Ford Touring Car, which costs \$600, f.o.b. Ford, Ont., can be purchased part by part separately for \$17 is ample proof of the economy of driving a Ford Car.

It will pay you to have your car overhauled during the winter months. 700 Canadian Dealers and over 2,000 Service Garages supply genuine Ford parts and prompt repair service.

When buying, choose a Ford, and take advantage of the economy of Ford service.

BUY AN IRRIGATED FARM FROM THE CANADIAN PACIFIC RAILWAY

BECAUSE:

Irrigation makes the farmer independent of rainfall, and in sure good crops, not occasionally, but every year.

Irrigation makes possible the successful culture of alfalfa, the king of feeders, which insures good returns in dairying and mixed farming.

Irrigation means intensive farming and close settlement of all the advantages of a densely populated agricultural community. Irrigation in the Canadian Pacific Railway Irrigation Block is no longer an experiment, the years that it has been tried having absolutely demonstrated its success wherever it intelligently applied.

This is the most liberal offer of irrigated farm land on record. For full particulars apply to

ALAN CAMERON, Gen. Supt. of Lands

Canadian Pacific Railway, Dept. of Natural Resources, 928 1st St. E. CALGARY, ALBERTA

You can buy irrigated land from the Canadian Pacific Railway at prices up to \$80 per acre, with 20 years to pay and the privilege of a loan of \$2,000 for improvements.

(6% interest); no principle after first payment until end of fourth year, reduced interest if settlement conditions are complied and no water rental for first year. Contract can be paid off before maturity if desired.

Would Eliminate Vets and Mange

Aggressive measures are being
taken in Calgary to have the mange
quarantine lifted off the enormous
territory held restricted in Southern
Alberta and Saskatchewan, the Gleichen district being included.

George Lane, one of the largest in-
dividual owners of cattle in the terri-
tory, is loud in his denunciation of the
treatment given the cattle owners by
the Government veterinary officials.
Mr. Lane claims that his loss to him-
self in one shipment to Chicago
through the action of these people
amounts to \$10,000.00 and claims that
if we had an active humane society in
this country these officials would be
persecuted for forcing stockmen to
acts of cruelty to animals to comply
with their directions.

Mr. Lane said, "The support I have
received at the hands of my fellow
cattlemen and the assurance they have
given me of their continuance in sup-
porting me until the whole thing is
cleaned up, encourages me to an-
nounce that nothing will be left un-
done to have this country freed of a
disease of both mange and the per-
secutions of paid Government health
inspectors and of the two evils I sure-
ly think the latter is the worse. The
Government cannot be aware of the
true conditions of the mange, or the
Government would not allow the
people to be persecuted and ruined as
the cattlemen are, for I have travel-
led this North American continent
over and can say that mange is no
worse in this section than in other
parts of this great continent where
no such blanket quarantine exists. I
have suffered an actual loss in one
shipment of over ten thousand dollars.
I have been forced to dip cattle in the
midst of winter weather and shrank
them heavily this year, and if I have
to lose any more money it is going to
be fighting for justice and my friends.

"If the Government vets. can prove
that this country is dirty (which I
know is not true) and impossible to
clean up, then I want to get out of it,
but if it is not, I do not want to be
robbed every time my cattle go to the
market and be persecuted and sub-
ject to the annoyance of these Gov-
ernment vets. and thousands of cattle-
men in this quarantine area are of
this same opinion.

"I think the situation has reached
its most critical stage and if the Gov-
ernment is going to back these vets.
and not listen to our appeals for an
investigation, the cattlemen will not
be able to make a success of their
business in this district and I for one,
am determined to see this thing
through."

Circle Sale of Work Dec. 6

The ladies of the Union Church
Circle are busy as bees these days,
preparatory to giving a sale of
work on Saturday, Dec. 6th. All
sorts of pretty and useful articles
are the outcome of their efforts. A
good supply of their ever recom-
mendable aprons are already
waiting for the the Gleichen house-
wives as well as caps, camisole bags,
corset covers and numerous other
things.

Two soft downy old-fashion com-
forts, pieced by the Circle ladies,
will mean solid comfort for this
winter. Anyone in need of bedding
will not miss this opportunity.
Many of the best cooks of Gleichen
will furnish the loaves, cakes, pies,
etc., for the sales of home-cooking.
Afternoon tea will also be served.

The ladies have secured, through
the kindness of Mr. Ed. Taylor, the
large bright office room of Lasher
& Gillian, in the Post Office Block,
and will hold their sale there.
Come, we are sure you will not be
disappointed if you are there by 3
o'clock. Positively no article will
be sold or marked sold before that
hour.

With Three-Point Suspension Springs New Overland 4 Seems to "Sail Over the Roads"

THE new Three-Point Suspension Springs
of Overland 4 permit the wheels to go
up and down but protect car and passengers
from ordinary road jolts.

Bumping, twisting, swaying and vibrating
are wonderfully lessened.

The springs of Overland 4, attached at the
ends of a 130-inch Springbase, give the riding
comfort and road steadiness heretofore pos-
sible only with cars of long wheelbase and great
weight, yet Overland 4 retains the light
weight and economy advantages of 100-
inch wheelbase.

Three-Point Suspension Springs protect
the car from the hammering and wear of road
blows. They lengthen its life and reduce
upkeep costs.

Equipment of Overland 4 is dependable
and complete from Auto-Lite Starting and
Lighting to Demountable Rims.

250,000 m. les of test have made the strength
and endurance of this car a matter of record.

See Overland 4 at the first opportunity.

Hopes Soldiers Will Raise Poultry

No branch of food production has
suffered during the war to a greater
extent than that of poultry and eggs.
In many countries of Europe it has al-
most disappeared, while in others
scarcity of feed and high prices and
the closing of markets have compelled
reductions of poultry flocks. The need
thus created is regarded by Mr. W. A.
Brown, chief of the Poultry Division
of the federal Live Stock Branch, as
Canada's opportunity to pave the way
for a permanent place in the export
trade to Great Britain. Mr. Brown
expressed this opinion at the first
Canadian National Poultry Confer-
ence, held in Ottawa this year, the
report of which has been published
and is available at the Publications
Branch of the Department of Agricul-
ture at Ottawa. It was strongly
urged at the conference that this is
the time of co-operation. The pro-
vinces were recommended to co-op-
erate with the Dominion as the great
clearing house of operations calculat-
ed to promote the industry. The
poultry industry was recommended
as a means of soldiers' re-establishment
by Mr. W. J. Black, Chairman of the
Land Settlement Board. He expressed
the hope that he would see a small
flock of poultry about the homes of
every returned soldier who becomes
settled on the land.

Seed Tested Free

The Dominion Seed Branch with
laboratories at Ottawa, Winnipeg and
Calgary reported over 85,000 seed
tests for the year ending June 30th.
The growth of seed testing in Canada
is indicated from the fact that only
5,775 samples were reported in 1909.
The great bulk of the work in our
seed laboratories is done between
September and June when each labor-
atory may handle up to 200 samples
per day. Only ten samples are test-
ed free of charge for any farmer or
seed merchant during the season.
Over this number, the service is
charged at cost.

Official seed testing is the basis of
Government seed control, which in
older European countries is rated as
a leading Government service to agri-
culture. Any country without an ef-
ficient system of seed control soon be-
comes the dumping ground for infer-
ior seeds from other countries, and
low-grade homegrown seeds may be
sold to unsuspecting farmers. Our
system is frequently referred to in
other countries as being the most
practical and efficient. Its import-
ance is now being better appreciated
when it is required that imported
seeds are not released from bond until
they are approved at the seed labora-
tories, and when cereal grains, flax,
corn, as well as clover and grass
seeds, are marketed on the basis of
fixed quality seed grade standards.

Best With Nature

The closer you follow the rules of
nature the more you will accom-
plish, and the longer you will live,
even nature takes her rest during
the winter months. Why not you?
Spend this winter on the Pacific
Coast, where you can enjoy sum-
mer betimes, ride, motor, golf, in
the big outdoors.

GILLETT'S LYE
USEFUL FOR OVER 500 PURPOSES
MADE IN CANADA

The Need For National Economy

With the successful flotation of the Victory Loan 1919, the enormous sum of \$673,200,000 having been subscribed,—the people of Canada have made provision for their great financial indebtedness occasioned by the war. When the Great War broke out with such startling suddenness in 1914, Canada pledged its last man and last dollar, if necessary, to uphold the cause of justice and liberty and to secure the triumph of those principles in which they believed, and which they regarded as alone making life worth living.

The Canadian people have kept faith. Their soldiers bore the brunt of battle right up to the last minute of the fighting, the Canadian Corps constituting the storm troops, the spearhead of the great allied advance from Amiens and on through Cambrai and Mons to victory. Those who remained at home served by work, self-denial and saving, and they have poured out their money in large amounts and small in order to enable the government to pay the country's bills and liquidate the indebtedness it had contracted. Canada still owes the money, but it owes it to its own people who have loaned it to their country.

Canadians have done well and have no reason to belittle their own efforts or to be ashamed of the results achieved by them. They have done all, and more, than was asked of them, even by their own government. Many reasons might have been advanced why the people of the Dominion should hesitate, but they cast it all aside in the broad national interest. The Victory Loan 1919 was a vote of confidence, not in any government or administration, but in Canada,—a demonstration by the people of Canada of a supreme confidence in themselves and their Dominion.

Now that the means have been provided for a "cleaning up" of the financial slate, and the restoration of the country to a more normal basis, it becomes the imperative duty of the Federal Government to institute the strictest economy in all national administration, and by the introduction of reforms, place Canada on the high way to marked future development and increased prosperity, happiness and contentment for all its people.

There is nothing to be gained in seeking to disguise the fact that there has been gross extravagance at Ottawa during the past five years. No doubt some of this was inevitable during the war, and Canada was not the only country to make such mistakes. But it cannot go on. It must be checked forthwith, and a return to financial sanity in Federal affairs established. Canada's expenditure at present far exceeds the revenue. This condition cannot be tolerated much longer. The two must be made to balance. This can only be done in

one of two ways, or rather by a combination of both.

First and foremost, our national expenditures must be reduced to the lowest possible point consistent with efficient administration. There is room for the cutting off of millions of expenditure, the stoppage of leaks, and the careful husbanding of the country's finances. If this cannot be carried to the point where the expenditure is reduced to present income, then the income of the country must be increased. This, of course, means an increase of taxation, and this the people must bear.

The second duty of the Federal Government, therefore, is to waste no more time in evolving a scientific scheme for raising the revenues required to cover our national expenditures. This will involve the most careful consideration, in order that no injustice be done to any class or section of the country; in order that those who are best able to carry the burden shall take the heavy end of it and those least able get off more lightly; and finally, that the fiscal and taxation policies be so drafted as to promote the maximum development of the natural resources of the country by which alone can employment be provided for all the people and our national wealth and prosperity be increased.

Our present haphazard system of Federal financing must be scrapped, existing injustices and inequalities in taxation removed, and a general re-adjustment and re-classification brought about, and this must be done without further delay if disaster is to be avoided and the confidence of the people not seriously undermined, and unrest become more widespread.

The Canadian people, too, as individuals, must realize that our greatest national need today is a universal adoption of the policy of increased production coupled with greater economy in living. For a time at least luxuries must be reduced to a minimum and extravagant indulgences of all kinds stopped. Having made the world safe for democracy, we must now set ourselves to the task of making democracy safe in the world, and this can only be done by the people as a whole getting back to first principles in conduct, in living, and in productive work.

The longest single patrol in the Yukon Territory is from Dawson to Fort McPherson, near the mouth of the Mackenzie River, a distance of 1,000 miles. The patrol last year made the journey in 57 days.

THE FALL WEATHER HARD ON LITTLE ONES

Canadian fall weather is extremely hard on little ones. One day is warm and bright and the next wet and cold. These sudden changes bring on colds, cramps and colic and unless baby's little stomach is kept right the result may be serious. There is nothing to equal Baby's Own Tablets in keeping the little ones well. They sweeten the stomach, regulate the bowels, break up colds and make baby thrive. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

One song sung amid a storm is of more benefit to mankind than a whole concert when the sun is shining.

Only the uninformed endure the agony of corns. The knowing ones apply Holloway's Corn Cure and get relief.

To Increase Egg Production.
One hundred real "egg layers" on each of the 750,000 farms in Canada is the slogan adopted by a poultry club just formed in Winnipeg, Manitoba. Allowing a net profit of a dollar per hen, this would mean an annual revenue of \$75,000,000. An elaborate campaign to further this project will be waged.

A wise man never boasts of his wisdom. He leaves that to his press agent.

Alleged Letter Of Admiral Von Rueter

A Truly German Excuse to Cover Hunnish Trick

A letter alleged to have been written by Admiral von Rueter to Mr. Lloyd George, protesting against the detention of the admiral who commanded the German fleet at Scapa Flow when it was scuttled, and other officers of the sunken fleet, is published in the "Taegliche Rundschau." Regarding the scuttling of the warships, Admiral von Rueter is quoted as saying:

"I was obliged to assume that war had again broken out, from the announcement in the British press regarding the rejection of the German counter-proposals to the Peace Treaty. Even if my idea that war had again broken out subsequently proved erroneous, nevertheless I acted in the conviction that it was war, and I and my subordinates, therefore, cannot be treated except in accordance with the usual customs of war."

A hawk can spy a lark upon earth almost exactly the same color at 20 times the distance at which it is perceptible to a man or dog. A kite soaring out of human sight can still distinguish and pounce upon lizards and field mice on the ground, and the distance from which vultures and eagles can spy their prey is almost incredible.

'Tis a Marvellous Thing. — When the cures effected by Dr. Thomas' Electric Oil are considered, the speedy and permanent relief it has brought to the suffering wherever it has been used, it must be regarded as a marvellous thing that so potent a medicine should result from the six ingredients which enter into its composition. A trial will convince the most skeptical of its healing virtues.

One Way to Silence Wives

Nine American soldiers have married at Archangel who do not understand a word of Russian. Their wives do not know one word of English. This situation is paralleled by a singular custom in certain islands of the Caribbean Sea. There the men speak a different language from that of the women. In Papasia the husband's language is quite different from that used by their wives, and missionaries find it impossible to create a common text book for the family use. The husbands do not encourage any familiarity with their tongue, apparently finding the present arrangement too advantageous.

Minard's Liniment Cures Garget in Cows.

Probably the greatest invention of the age is a woman's method of concealing it.

Love may not be blind, but after marriage is often out of sight.

Looked Like Intended Suicide

The citizen who was brandishing a fierce looking razor says it wasn't suicide but corns he was thinking about. Needless to say, his wife bought him Putnam's Corn Extractor and hid the razor—very wise, because Putnam's cures in 24 hours; try it, 25c at all dealers.

Big Lumber Deal Closed

What is probably the biggest deal in the history of the lumber business of Manitoba has just been negotiated at Winnipeg. Three hundred and twenty-four miles of timber limits in the Pas district, in Northern Manitoba, have been disposed of for \$1,500,000 to C. J. and D. N. Winton, of Minneapolis, by the Finger Lumber Company. The deal, which includes a large sawmill, planing plants, and logging equipments, becomes effective at once and possession will be taken within a month. H. Finger, head of the retiring company, is a pioneer in the north country, going to the Pas in 1904, when it was Indian territory. The capacity of the company is about 190,000 feet per day.

The words of a weak woman often carry more weight than the muscles of a strong man.

No man is necessarily wise because he lives the simple life.

Cost to Britain of Armies in Russia

Total Cost of Operations From November 11, 1918, to October 31, 1919

According to a White Paper which has just been issued, the total cost of the Russian operations to Great Britain from the day on which the armistice was signed to October 31 last, was £94,830,000, but of this total very nearly half is for surplus munitions and stores, described as non-marketable. The cost of the actual "operations" was £27,124,000, of which £17,364,000 represented the Murmansk and Archangel operations £6,350,000 the naval operations in the Baltic and the Black Sea, and £3,410,000 the maintenance of the army in the Caucasus.

"Assistance to the Russian armies" totalled £17,380,000, including £8,540,000 to Admiral Kolchak, £7,775,000 to General Denikine, and £1,070,000 to the Baltic states, including the northwest Russian corps. The figures for the Murmansk and Archangel operations included £3,160,000 for overseas transport and £2,805,000 for marketable munitions and stores for the Russians.

To the total for actual operations has to be added £5,770,000 for munitions and stores for the Russians, described as non-marketable, and to the total for assistance to the Russian armies £29,550,000 for non-marketable munitions and stores.

The White Paper adds that, in addition, a final contribution of stores and assistance to General Denikine has been decided upon to the total value of approximately £15,000,000, of which about £12,000,000 worth are surplus and non-marketable and, in consequence, involve no additional charge to the Exchequer.

Germany's Pre-War Debt to Lacemakers

Nottingham Commerce Chambers Urge Government Action

Nottingham lace merchants are exercised about pre-war debts owing to them by Germans. At a meeting of their chamber of commerce they decided to press on the government the urgency of recovering such debts. It is computed that the amount of these debts exceeds £2,500,000. A great part of the finishing and bleaching trade in Nottingham before the war was executed for firms in Plauen, whose withholding of payment has crippled severely some of the Nottingham houses. One local firm has more than \$450,000 owing to it in Germany.

Some Big Yields

Twenty-four Bushels of Flax to the Acre in Alberta

After a temporary interruption owing to unfavorable weather, threshing is again getting under way in Alberta. Some big crops are being reported from the irrigated farms near Brooks. Austin Young, who came to Alberta from California last year, settling on an irrigated farm south of the town, has just completed threshing a 56-acre field of flax. His total yield is 1,344 bushels, an average of 24 bushels to the acre. At present prices this crop is worth about \$6,000; each acre, therefore, yielded a return of \$107 during the first season's working. A. Duchesne, who farms near Tilley, an adjoining district, has threshed a field of barley which yielded 40 bushels to the acre, and a crop of flax which averaged 18 bushels to the acre. This farmer has had about two years' experience with irrigation.

Alberta Stockmen
To Be Well Represented at International Livestock Show at Chicago

Alberta is to be well represented at the International Livestock Show, to be held at Chicago in 1920. The Department of Animal Husbandry of the Alberta University has undertaken to select a number of fat steers bred and fed in Alberta. The animals for exhibition will be furnished from three leading beef breeds of Alberta, Herefords, Aberdeen Angus and Shorthorns, and several fine animals have been offered by stockmen of the province. These are to be available for demonstration purposes at the university during the season 1919-20, before being sent to the exhibition. Alberta stockmen are confident that they will make a good showing at the international.

Asbes of Flags Reach Paris
The ashes of the 70 flags captured by the Germans in 1870 and burned in Berlin last July in defiance of the terms of the peace treaty, have arrived in Paris at the French Army Museum, accompanied by an officer and some soldiers.

The philosopher's scales are useless out of his own hands.

Apple Production Declines in Ontario

Fruit Grower Wants Department of Agriculture to Extend Its Work

"I sincerely hope that the department of agriculture will extend their work, and now is the opportune time for them to do so, before it is too late, as apple production is on the decline in Ontario. I also think that the department of agriculture can do great work in having experienced men throughout Ontario, to be known as instructors in the growing and packing of fruit," said President James Johnson, of Simcoe, at the sixteenth annual meeting of the fruit growers in Toronto recently.

DAD! YOUR HAIR IS FALLING FAST

"Danderine" Will Check That Ugly Dandruff and Stop Hair Coming Out.

To stop falling hair at once and rid the scalp of every particle of dandruff, get a small bottle of "Danderine" at any drug or toilet counter for a few cents, pour a little in your hand, and rub it into the scalp. After several applications the hair usually stops coming out and you can't find any dandruff. Soon every hair on your scalp shows new life, vigor, brightness, thickness and more color.

Marble Bust Of Prince

Model Completed and Will Adorn Parliament Buildings at Ottawa

To commemorate the placing of the corner stone in the peace tower by the Prince of Wales, and as a small token of the country's appreciation of the royal visit, a marble bust and pedestal of the Prince will be erected in the new parliament buildings.

The model, already completed out of white clay, having a Gothic pedestal in harmony with the building, was exhibited in the hall of the Commons recently, and was greatly admired. The Prince is shown dressed in military costume, and though dignified, is tinged with a slight smile which twists his whole face.

Fortunate is the girl who loses her temper and never finds it again.

Sleeplessness. — Sleep is the great restorer and to be deprived of it is with loss. Whatever may be the cause of it, indigestion, nervous derangement or mental worry, try a course of Parmed's Vegetable Pills. By regulating the action of the stomach, where the trouble lies, they will restore normal conditions and healthful sleep will follow. They exert a sedative force upon the nerves and where there is unrest they bring rest.

Alberta Stockmen

To Be Well Represented at International Livestock Show at Chicago

Alberta is to be well represented at the International Livestock Show, to be held at Chicago in 1920. The Department of Animal Husbandry of the Alberta University has undertaken to select a number of fat steers bred and fed in Alberta. One Argument For More Salary

An Unfortunate Junior Teacher Who Lingered Long in the Service at a Miserable Salary

Victoria's feminine school teachers are sharing in the general increase of salary rendered necessary by the rise in the cost of living. There are some, however, who believe that much was accomplished by one who described herself as "an unfortunate junior teacher who has lingered long in the service at a miserable salary." This teacher illustrated the deplorable condition of her wardrobe by sending a tattered specimen in a neat brown paper parcel to the Director of Education, who forwarded the note and the garment to the Minister for Education, the latter presenting it to the Premier. The note was placed on an official file, the garment was placed in an unofficial basket, and the cause of junior teachers' was greatly advanced.—Christian Science Monitor.

Jimmy's Escape

"Jimmy," said the fond mother to her smart nine-year-old, "what became of that fruit cake I made for you as a treat yesterday? Did you eat it?"

"No, mama," answered Jimmy with a grin. "I gave it to the teacher instead."

"That was very generous of you, Jimmy," complimented his mother. "And did your teacher eat it?"

"Yes, I think so," answered Jimmy. "She wasn't at school today."

Minard's Liniment Cures Distemper.

Skimmed Milk Wasted

Two hundred thousand pounds of skimmed milk are being wasted yearly in one dairy alone, according to the statement by a Saskatoon milk dealer, who declared his company could secure no market for it, and was forced to dump it into the sewers. The board discussed the possibility of establishing a cheese plant in order to use waste milk.

TORPEDOED!

Don't blast your Liver and Bowels, but take "Cascarets."

You men and women who can't get feeling right—who have headache, coated tongue, bad taste and foul breath, dizziness, can't sleep, are bilious, nervous and upset, bothered with a sick, gassy, disordered stomach and colds.

Ate you keeping your liver and bowels clean with Cascarets, or shocking your insides every few days with Calomel, Salts, Oil and violent pills?

Cascarets work while you sleep; they cleanse the stomach, remove the sour, undigested, fermenting food and foul gases; take the excess bile from the constipated waste matter and poison in the bowels. Cascarets never gripe, sicken or cause inconvenience, and Cascarets cost so little, too.

Great Hopes of Finding Oil

In reply to a newspaper representative at Edmonton, C. O. Stillman, of the Imperial Oil Company, stated that they have great hopes of developing a Canadian supply of oil in Northern Alberta before very long. Geologists of the company have been working in the territory during the past summer, and from results already obtained they feel quite sure that their work will be productive. Mr. Stillman and other high officials of the company have been going over the work that has been accomplished and considering plans for next year's investigations.

ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

For Colds, Pain, Rheumatism, Aching Joints, Lumbago, Sciatica, Neuritis, and for Headache, Neuralgia, Toothache, Earache, take Aspirin marked with the name "Bayer" or you are not taking Aspirin at all. Accept only "Bayer Tablets of Aspirin" in an unbroken "Bayer" package which contains complete directions. Then you are getting real Aspirin—the genuine Aspirin prescribed by physicians for over nine years. Now made in Canada. Handy tin boxes containing 12 tablets cost but a few cents. Druggists also sell larger "Bayer" packages.

There is only one Aspirin—"Bayer"—You must say "Bayer"

Applied After Shaving

Keeps the Skin Soft and Smooth

MANY men suffer from irritation of the skin as a result of shaving. With some it assumes a form of eczema and becomes most annoying and unsightly.

By applying a little of Dr. Chase's Ointment after shaving the irritation is overcome and such ailments as Barber's Itch and Eczema are cured.

60 cents a box, all dealers, or Edmondson, Bates & Co., Ltd., Toronto.

Dr. Chase's Ointment

Construction Of Rural Telephones

Saskatchewan Leads the World in Telephone Extension Work at Present Time

More telephone construction is being undertaken in Saskatchewan at the present time than in any other part of the world, is the assertion of D. C. McNab, the deputy minister of telephones of the grain province.

Approximately 7,000 pole miles of rural telephone construction has been completed or is under way in this province since May 1, as compared with the total mileage of 4,493 miles for the entire fiscal year ending April 1, 1919. During the present fiscal year to date, the department of telephones has received applications for no less than 12,986 pole miles of rural telephone extensions, involving some 13,708 subscribers. Of this total some 5,000 miles have been constructed and at least 6,000 miles are in the course of construction.

Union Church Notes

Next Sunday evening, at 7.30, Rev. H. F. Marr, B.A., of Calgary, will speak on work of the British and Foreign Bible Society. Mr. Marr is Provincial Secretary for the Canadian branch. Those who know about the really great organization which is circulating the scriptures in more than 500 languages, will not fail to hear the wonderful story told as only the secretary can tell it.

The annual meeting of the local branch of the Bible Society will be held, not as announced, but on Sunday evening, after the regular service.

The Ladies Circle sale of work will be held on Saturday, Dec. 8th, in Lasher & Gilliland's office. Post Office block.

All is set for the Hooky Club dance on Dec 8th. Mrs. Trainor's orchestra has been engaged and the Club members are determined to make this dance one of the most enjoyable of the season. They also hope to make sufficient money to buy new goal nets, uniforms, etc.

The Overland 4 is now the coming car for prairie roads. Bates & Gibson are the local agents and make a specialty of repairing all autos. See page 7.

Get your Xmas ads. ready now.

MISCELLANEOUS

Notices under this heading 15 words or under 50c for first insertion and 25c each subsequent insertion—3 issues for \$1. Over 15 words one cent a word charged for each insertion.

Horses and Cattle lost and found, for sale and wanted; Seed Grain for sale and wanted; Land to sell, rent or buy, and any other of a similar nature will get quick results by being published under this heading.

Brand reading notices each animal, three insertions. Over 15 words 1 cent per word extra each issue.

When brands have to be cut a charge of 35c. each is made.

In order to insure publication CASH MUST accompany each notice.

\$10.00 REWARD for information of three large steers brand on left ribs. Write Box 61, Cluny. 41

STRAYED—Bay gelding branded A left shoulder. \$10 reward. Thorvald Nielson, Standard. 36

TO RENT—House on the Millie farm, apply Williams, 2 miles north of town. 36

FOR SALE—4 room cottage, stable coal shed and good well, also lots 80 and 31 in block D. Jos. Desjardine. 41

TAKE NOTICE

Take notice that the Annual Meeting of the Gleichen Public School will be held in the Gleichen Town Hall at 8 P.M. on Monday, November 24th, and the election of Trustees on Monday, December 1st. PETER MACLEAN, Secretary.

SCHOOL IN THE HOME

Problems of Homework and Parents Are Discussed

Parents who encourage their children to carry out experiments learned at school, and generally to utilize the knowledge gained there at home, are doing a wise thing. There is, on the whole, too great a gulf between home life and school life. It is a constant cry, nowadays, that the children do not learn anything at school. After many years of what is considered the best education, we find much to be desired in the child's equipment. The boy is often a disappointment to his employer, and the mother is surprised to find that her daughter knows less than she knows herself. One of the chief reasons for this failure is to be found in the fact that too much is attempted during the child's school life. Another reason is that there is little interest of a practical nature taken in the child's work at home.

Lack of Wise Sympathy

The cry, "Have you finished your lessons?" is often heard; but there the matter ends. The parents seldom take the trouble to ask, "What lessons have you to do this evening?" and the children do not often volunteer the information. Very frequently the child is stopped in his recital of the day's doings at school, by an impatient request to "be quiet," and the telling of the tale is never completed. Those who have had experience in teaching, know at once when there is any interest taken in the child's lessons at home. Such children, though they may not be quite so bright as others in the class, always get on more rapidly, and have a clearer understanding of their work. Where a child is naturally gifted, and where at the same time there is an intelligent interest taken in his work in the home, his progress is made very rapidly indeed.

Happy and Bright

The child with an unsympathetic home circle, or an apathetic or unintelligent one, loses very often the interest that he would otherwise have in his work. He feels that at home it matters little or nothing how he gets on at school. He cannot discuss his work with anyone there, and he cannot get help when it is wanted, or give information—for this last is never needed. We all know that a fact once heard is soon forgotten. We know, too, that a fact heard, and then repeated once or twice to others, will linger for a long time in the memory. The child learns by teaching, and if we will allow our children to teach us what they have learned at school, if we will allow them to use their knowledge at home, we shall find that they make much more progress, and are far happier into the bargain.

Some parents, on the other hand, take, if possible, too great an interest in their children's school life. They ask all the questions, without waiting to be told anything. And, worse even than this, they "drive" their offspring to such an extent, that jaded and worn, the children can never hope to do themselves or their parents credit.

Rice Dumplings

It was the old Creole cooks who first evolved that famous Creole dessert, rice dumplings. They are made as follows: One-half cup of flour, three cups of ground rice, eight apples, tart and not over-ripe, two quarts of milk, sugar and cinnamon, one-quarter of the peel of an orange and one-half of a grated nutmeg. Pare the apples and take out the cores, leaving the apples whole. Take the ground cinnamon and sugar, mix well and fill the cores with this mixture. In the meantime boil the rice in milk until it comes to the consistency of flour, having added the grated orange peel and one-half teaspoonful of grated nutmeg and one-half cup of flour. Take off fire and let cool. Then cover each apple with a very thick coating of the rice and tie each dumpling in a cloth very tightly and put them in a pot of cold water. Bring the water to a quick boil and boil the apples for three-quarters of an hour. When done undo the cloth and place the dumplings carefully on a large dish. Sprinkle each with a little nutmeg, put on top of each a dot of butter, set in oven for five or ten minutes to brown, and serve with hard or cream sauce. They are most delicious with hard sauce. They may be served without setting in oven, immediately after they have been taken from the water, or they may be served cold.

Chicken Pudding

Cut up chickens and stew till tender, then take them from the gravy and spread on a flat dish to cool, having first well seasoned them with butter, pepper and salt. Make a batter of 1 quart of milk, 3 cups of flour, 3 tablespoonfuls of melted butter, 1/2 teaspoonful of soda, 1 teaspoonful of cream of tartar, a little salt. Butter a pudding dish and put a layer of chicken at the bottom and then a cupful of the batter over it; proceed till the dish is full with the batter forming the crust. Bake an hour and serve with the thickened gravy in a gravy boat.

Local and District News

Mrs. T. W. Woods is quite ill at Calgary.

The G. W. V. A. has postponed the wist drive for tonight indefinitely.

Geo. Matthews made a flying business trip to Winnipeg to arrange for Santa Claus to visit his store.

A. G. Saunders, wife and family left Monday afternoon for Chilli-wack, B. C., where they will reside in future. He says he hopes to return to Gleichen occasionally.

The death of Lionel R. Brereton at 1 o'clock Monday morning came as a great shock to the many friends of the family. The funeral will take place this afternoon, and details will be available for our next issue.

A British whisky manufacturer declares that Canada's prohibition law is a farce, and offers as proof the fact that his firm, which manufactures a famous brand of Scotch, has sent more of that brand to the Dominion since prohibition came into effect than it did before. That certainly looks as if a case had been made out against the "dry" law.—Thus remarks the Calgary Herald. Wonder if the Herald ever counted how many Scotchmen are holding government jobs in Canada?

Drug stores which have been selling liquor at prices above those fixed by the provincial government are due to receive a severe jolt soon, according to a message from the attorney general's department at Edmonton. The text of the communication was brief, merely stating that the government was preparing to enforce the law rigidly that drug stores must sell liquor at the prices set forth on the Government liquor vendor's list, and printed on labels attached to the containers.

Just what method the government purposes to pursue in enforcing the law is not stated. It is inferred, however, that offending drug stores will be struck off the list and not permitted to buy any more liquor from the government vendor. This was the punishment meted to druggists who were too free in accepting forged prescriptions, and it is considered the most efficacious.

W. R. McKie returned last Thursday from Banff and is receiving the congratulations of his numerous friends on the arrival of twin daughters.

O. P. Weddell, the well-known shoemaker, has moved to Calgary with his wife and family to join his two sons in a similar business they have started since their return from the war. Mr. Weddell wishes to express his sincere thanks to the people of Gleichen for their patronage and many kindnesses during the seven years he has been in business here, and to wish them one and all ever-increasing prosperity in all things.

Pretty good for a reverend.—Not long since we attended a committee meeting when an effort was being made to persuade one member to make a speech at a proposed public meeting, who was feeling rather bashful about it, but finally admitted: "If I had a little Scotch in me I could talk alright." A reverend gentleman present thereupon remarked in quite a casual tone: "I have had a little Scotch in me all my life and rather consider it a detriment." Pretty good, pretty good for a reverend.

In the course of its attempt to secure the re-enlistment of men formerly in the army, the war department recently wrote to an ex-soldier detailing the pleasures and pastimes of army life. With a grim smile the former doughboy replied:

"I have a good job in a shoe store here. After what I suffered during the war you can tell the army to go to hell."

About ten days later he was rather startled to open a letter in an official envelope, a communication which informed him that:

"Any suggestions as to movements of troops must be entered on army form, CQ 456-73, a copy of which is inclosed."

A fifty dollar fine for selling short weight potatoes was imposed in the police court yesterday. In addition, it was disclosed that the culprit's scales were defective. It is bad enough to have to pay the prices now being asked for food supplies without being short-weighted or made the victims of defective scales.

Announcement

Having purchased The Gleichen Meat Market from Mr. Victor W. Beckwith we desire to announce to the people of this town and district that it is our intention to give the very best service our life-long experience in this business enables us to render. We ask a trial order to prove what we can do in quality, price and service. We guarantee satisfaction in small or large orders, and the children will receive the same attention as you receive.

Not only are we here to sell the best of meats, but we are prepared to purchase all the products of the farm and ranch at the highest market price.

We Buy and Sell
